Projects

Personal Portfolio

Crafted a sleek, responsive personal website to showcase my work and skills using HTML, CSS, and JavaScript. Designed with user experience in mind for easy navigation and presentation.

YouTube Clone

Recreated a YouTube-like platform that allows users to search and watch videos, using React and the YouTube Data API for an engaging, fluid interface.

Random Quote Generator

Developed a fun and dynamic web app that delivers fresh, inspirational quotes with every refresh using JavaScript. Clean design and seamless functionality.

Crypto Website Clone

Built an interactive cryptocurrency tracker clone with HTML, CSS and JS. Focused on creating a responsive and visually appealing UI to display cryptocurrency information with placeholders for real-time data.
